Invitation from the President/General Chairman

Welcome

It is with great pleasure that I invite you to attend the 29th Annual Academy for Sports Dentistry Symposium to be held at the Green Valley Ranch Resort and Spa, in Henderson, Nevada, June 22-25, 2011. This is an outstanding location just minutes away from the Las Vegas Strip, the Hoover Dam, and the best entertainment including Phantom of the Opera, Jersey Boys, Lion King and Cirque du Soleil. We have a terrific scientific program including the latest in dental trauma treatment, athletic mouthguards, medical head and neck issues while treating oral facial trauma, smokeless tobacco and a full day sports team dentist course. Our annual silent auction will again include memorabilia from many professional and collegiate teams and players. The Annual Symposium is one of the few opportunities for dentists to share their knowledge, expertise and enthusiasm in the treatment and prevention of orofacial sports trauma. You will not want to miss this meeting. For our ASD members, I encourage you to bring a colleague and expose them to all that is new in Sports Dentistry.

I look forward to seeing you in Las Vegas,

Ray R. Padilla, DDS, FASD
President ASD

Dr. Daniel Orr, Local Arrangements Chairman

General Information

Continuing Education Credit

The Academy for Sports Dentistry is ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. **Academy for Sports Dentistry designates this activity for up to 26 continuing education credits for full participation in the Team Dentist Course, Symposium (lectures) and (hands on) Workshops.**

The Academy for Sports Dentistry is also designated as a nationally approved sponsor by the Academy of General Dentistry. The formal continuing education programs of this sponsor are accepted by AGD for Fellowship/Mastership and Maintenance Credit. The Academy also has approval as a continuing education provider for certified athletic trainers by the N.A.T.A. Board of Certification (NATABOC). Attendance at the ASD meeting counts for double credit hours towards ASD Fellowship. **Academy for Sports Dentistry designates this activity for up to 26 continuing education credits for full participation in the Team Dentist Course, Symposium (lectures) and (hands on) Workshops.**

Dress

The weather in late June is hot. Expect the temperatures to range from the 70's in the evenings and early morning warming to low 100's during the day. I recommend checking a 5-day forecast when packing your bags. The recommended attire for the symposium is business casual.

Henderson, NV / Las Vegas, NV

Las Vegas continues to build upon its reputation as a vibrant showcase for the extraordinary. This is the city that attracts more than 36 million visitors a year by offering the grandest hotels, the biggest stars in entertainment, the highest caliber of award-winning chefs and master sommeliers, and, of course, the brightest lights.

There are many reasons why Las Vegas commands the title as "The Entertainment Capital of the World." Some of the world's most exciting and versatile entertainers perform here. While planning an evening of entertainment, look to the growing roster of gourmet restaurants and unparalleled wine and food adventures in Las Vegas. A host of fine dining and lifestyle magazines – including *Bon Appetit*, *Wine Spectator*, *Gourmet*, *Robb Report* and *Esquire* – have honored the city for its fantastic fare and hailed individual restaurants for their exquisite cuisine. To accompany its growing list of world-class chefs, Las Vegas has attracted more master sommeliers than any other U.S. city.

Drawing an influx of designers and upscale specialty boutiques, Las Vegas has become one of the premium world-class shopping destinations in the country. Headliners such as Harry Winston, Manolo Blahnik, Juicy Couture, Jimmy Choo, and Dolce and Gabbana now populate the Strip at the Fashion Show, Forum Shops at Caesars, Mandalay Place, Miracle Mile Shops, Grand Canal Shoppes, Via Bellagio and the shops at Wynn Las Vegas.

Hotel Accommodations

Green Valley Ranch and Resort is a magnificent Las Vegas hotel, resort and spa that attends to its guests with unmatched special touches and an impeccable service philosophy. Their elegant décor and hotel accommodations, world-class cuisine and lively entertainment create an exciting experience for the senses. We have combined these standards and amenities with the grandeur of our grounds and facilities to make GVR the choice in luxury hotels in Las Vegas.

Green Valley Ranch Resort & Spa will treat you to an experience that is truly close to the Las Vegas action, but a world apart.

The Academy has a special group rate of \$120.00 per night. Please make your reservations directly with the Green Valley Ranch Resort and Spa (866) 782-9487. Indicate you are attending the **2011 Academy for Sports Dentistry Symposium** and give the reservation agent the group code of **GCIAOSD**. This special rate is in effect until May 31, 2011; however, we suggest you reserve early, as there is a limited number of rooms at the group rate.

Special Accommodations

In compliance with the Americans with Disabilities Act of 1990, the Academy for Sports Dentistry will make all reasonable efforts to accommodate persons with disabilities at its meetings. Please call (217) 227-3431 with any special requests.

Transportation

Green Valley Ranch has a complimentary shuttle available from McCarran International Airport. The shuttle runs on a regular schedule. For shuttle questions please contact the hotel bell desk at 702/617-7745.

Taxis are also available from the Airport to the hotel at a cost of approximately \$30.00 one way.

Annual Symposium Silent Auction

Every year the Academy presents a Silent Auction to benefit education, dental trauma and prevention research. If you have autographed items or other unique items you would be willing to donate for the auction, the ASD Board welcomes your help. Please contact Shelly Lott at 217/227-3431 or fax 217/227-3438 with your contributions.

Team Dentist Course, June 22, 2011

Introduction:

As the fields of sports medicine and sports dentistry evolve, so too does the role and responsibilities of the **Team Dentist**. The clinician requires sport specific knowledge and special training in order to work to his or her capacity in amateur or professional sporting events. In the Academy we feel that this course will help the practitioners carry out their responsibilities in an appropriate manner.

This course is primarily designed to meet the educational needs of clinical dentists from all fields of dentistry who care for and participate in sports teams as part of their practice. With the completion of the **ASD Team Dentist Course** the clinician will have been presented with the information needed to perform his or her duties as a team dentist.

The responsibilities of a “**Team Dentist**” may include:

1. Organizing dental care for a specific team.
2. Delivering dental care to the athletes:
3. Pre-participation dental exam and medical history.
4. Treatment of dental conditions and injuries with return to activity recommendation.
5. Identification and proper referral of psychological and drug problems.
6. Participating in the development of a mouthguard program.
7. Providing coverage for games and other sports competition.

Course Objectives:

Provide information needed to become and carry out your role as a team dentist.
Identify specific situations and problems encountered in various sports (baseball, football, hockey, boxing, etc.).
Explain the basic principles of prevention of dental injuries.
Understand the guidelines for, and be able to fabricate a properly fitted mouthguard.
Identify and provide diagnosis and treatment of various dental problems of the athletes including those in active competition.
Identify the role of therapeutic drugs, performance-enhancing drugs and recognize drug abuse in sports.

Course Description:

This course is intended to provide additional knowledge to the dentist in a sports-related environment. Clinicians interested in learning the basic information necessary to perform the duties of a “**Team Dentist**” along with the responsibilities of the dentist as a member of the medical service team will be discussed. Upon the completion of this program the dentist will receive verification from the ASD for 8 hours of continuing education credits.

June 22, 2011 Team Dentist Course Schedule

7:30 am- 8:00 am	Registration	2:45 pm – 3:15 pm	The Athletic Mouthguard Group Activity from Impression to Delivery Richard Knowlton, DMD, MAGD
8:00 am- 8:30 am	Introduction to the Team Dentist Concept Stephen Mills, DDS, FASD	3:15 pm – 3:45 pm	Concussions and Performance Enhancement Appliance Stephen Mills, DDS, FASD
8:30 am – 9:30 am	Preparation and Readiness for the Team and the Dentist Jeffery Hoy, DDS, FASD	3:45 pm – 4:30 pm	Odds and Ends for the Athlete (Tattoos, Piercing, etc) Margaret Hill, DMD
9:30 am – 10:15 am	Legal and Illegal Drugs and Doping Leslie Rye, DDS, FASD	4:30 pm- 5:00 pm	The Life of the Team Dentist and the Modern Athlete Mike Robinson, III, DMD
10:15 am – 10:30 am	Break		
10:30 am – 12:00 pm	Trauma Recognition and immediate Treatment David Farkouh, BSc, DMD, MSc, FRCDC		
12:00 pm – 1:00 pm	Lunch on your own		
1:00 pm – 1:45 pm	Restorative Dentistry for the Active Athlete Douglas Lambert, DDS, FACD, FASDA, FASD, ABAD		
1:45 pm – 2:30 pm	Prevention of Orofacial Injuries/ the Athletic Mouthguard Stephen Mills, DDS, FASD		
2:30 pm- 2:45 pm	Break		

Be a Winner In Las Vegas; Sports Dentistry - It's a Sure Thing

Thursday, June 23, 2011

- 7:30 am – 8:15 am** **Registration/Exhibits/Continental Breakfast**
- 8:15 am – 8:30 am** **Welcome/Opening remarks**
- 8:30 am – 10:30 am** **Lecture: Optimizing Craniofacial Form and Function Using Epigenetic Orthodontics**
Speaker: G. Dave Singh, DDS, PhD, BDS
 At the conclusion of this session each attendee will have knowledge of basic craniofacial molecular biology. Understand the basic orthodontic molecular genetics. Have an appreciation of craniofacial developmental mechanisms and a comprehension of mechanisms orthodontic tooth movement. Gain a realization of the significance of epigenetic orthodontics
- 10:30 am – 11:45 am** **Lecture: Oral & Maxillofacial Traumatology**
Speaker: Daniel Orr, DDS, PhD, JD, MD
 This presentation will be dealing with oral & maxillofacial trauma in athletes, including rehabilitation.
- 12:00 pm – 2:00 pm** **Recognition Luncheon**
- 2:15 pm- 3:30 pm** **Lecture: "Dental Trauma: Optimizing the Outcome"**
Speaker: Jeffery Hoy, DDS, FASD
 Dr. Hoy will present the various classifications of traumatic dental injuries with examples. In addition he will review treatment options for more complicated dental injuries including, initial treatment, interim treatment, definitive treatment and follow-up.

 At the conclusion of the presentation attendees will be able to identify & classify various types of traumatic dental injuries. They will also be able to identify various treatment options for more complicated dental injuries and identify the proper follow-up following a traumatic dental injuries.
- 3:30 pm- 4:00 pm** **Exhibits/Breaks**
- 4:00 pm- 5:30 pm** **Lecture: Major Cosmetic Restoration of Severely Traumatized Teeth** **Speaker: Brett Dorney, BDS, FASD**
 This lecture will focus on correct diagnosis of the damaged tissues, immediate and long term term goals and an understanding of possible complications. Dental trauma will be classified as either acute, requiring immediate treatment, sub acute with treatment occurring within 24 hours and delayed where treatment is after 24 hours. Some of the cases shown will have a 15 year history while the more recent cases will show the benefit of evidence based treatment.

 The challenges of treating severe Dental trauma are to restore normal aesthetics and function. Where that is not possible modern restorative materials and implants must be incorporated into the treatment plan. A distinction must be made between healing and repair. Many cases that I have treated will demonstrate how to deal with the most severe

traumas that could be treated in general Dental practice .The website www.dentaltraumaguide.org is a visualization of the IADT (International Association of Dental Trauma) trauma guidelines. It looks at Dental trauma in the permanent dentition but this lecture will also cover trauma to the primary dentition. There is definitely an increase in the number and severity of Dental trauma requiring treatment in general practice. This lecture will assist you in decision making and treatment for Dental trauma victims from age 3 to age 80.

5:30 pm **Adjourn**

Friday, June 24, 2011

- 7:30 am – 8:15 am** **Registration/Exhibits/Continental Breakfast**
- 8:15 am** **Call to Order**
- 8:30 am -10:00 am** **Lecture: Possible Relationship Between Occlusal Position and Concussion**
Speaker: Gerald Maher, DMD
 Concussions have long been treated after they occur with little attention being given to prevention. Mouthguards and custom fitted orthotics should be based on dental anatomy and TMJ Biomechanics. The head, neck and jaw work as a unit. Dr. Maher's theories are based on 38 years treating TMD patients.

 Dental anatomy, occlusion, collapsed vertical dimension, clenching, grinding and TMJ pathology all influence jaw position and splint thickness. Dental principles must be followed when an appliance is inserted. The dentist must know where he is placing the jaw. This position is not centric occlusion. If you move the jaw incorrectly you will cause more harm than good.
- 10:00 am – 10:30 am** **Exhibits/Breaks**
- 10:30 am- 12:00 pm** **Lecture: Mouthguards: Past, Present, and Future**
Speaker: David Kumamoto, DDS, FASD
 This presentation will describe the history, evolution, and future development of the athletic mouthguard. The role of the Academy for Sports Dentistry with respect to mouthguard utilization in sports today will be discussed.

 At the conclusion of the presentation the attendee should understand the history of early mouthguards and the changes that have been made to mouthguards over the years. They should also understand why research is necessary and what needs to be done in the future.
- 12:00 pm – 1:00 pm** **Lunch (on your own)**
- 1:00 pm – 2:30 pm** **Lecture: Taking the Bite out of Head and Neck Trauma in Impact Sports**
Speaker: Michael Mellman, MD
 This presentation will provide an overview of head and neck impact injuries with the intent to expand the treating dentist/oral surgeon's view beyond the oral cavity.

2:30 pm- 3:00 pm **Break/Exhibits**

3:00 pm – 4:30 pm **Lecture: Spit Tobacco:
“What’s Occurring Under the Radar”**

Speaker: John Wisniewski, DMD, MS

The use of smokeless tobacco among professional baseball players, concerns that these baseball players are “role models” and research investigations regarding the harmful effects of “spit” tobacco use among professional baseball player were funded, heightened, and peaked between 1985 and 1995. While campaigns by the National Spit Tobacco Educational Program (NSTEP) which are supported by PBATS, the NATA and the NCAA remain active, there appears to be a general “lack of interest” and “denial” of the use of “spit” tobacco by members of the dental and medical professions. Additionally, health educators and school administrators at the high school and collegiate level as well as minor league baseball administrators have adopted a similar level of apathy and disinterest. The presentation will provide a comprehensive update and review and demonstrate why the topic of “spit tobacco” needs to be of a constant paramount focus by the sports dentist.

Following this presentation, the attendee should be able to understand and discuss the emergence of a silent epidemic in high school and the profile of the adolescent athletic.

In addition they should understand the demographics of “Spit Tobacco” lesions. The increase of “Spit Tobacco” use among baseball players and in football.

4:30pm **Adjourn**

6:00 pm –9:00 pm **President’s Reception/Silent Auction
Hotel**

Saturday, June 25, 2011

7:30 am – 8:00 am **Registration/Exhibits/Continental Breakfast**

8:00 **Call to Order**

8:00 am- 9:00 am **Annual Business Meeting**

9:00 am – 11:00 am **Lecture: Dental Trauma review of the
2010 Vancouver Olympic Games**
Speaker: Paul Piccininni, BSc, DDS, FASD

This presentation will provide a dental trauma review of the 2010 Vancouver Olympic Games.

11:00 am- 11:15 am **Exhibits/Breaks**

11:15 am- 12:15 pm **Lecture: Sports Drinks, Do They Affect
The Dentition**
Speaker: Brett Dorney, BDS, FASD
This lecture will challenge the marketed benefits of sports drinks, discuss their ingredients, look at the defense mechanisms in the oral cavity, investigate hydration and show numerous cases of young athletes teeth damaged through erosion and attrition.

The need for carbohydrate and electrolytes replacement depends on exercise intensity, duration, weather and individual differences in sweat rate. This presentation will

investigate the rationale for sports drinks and the chemical, biological and behavioural factors that influence Dental erosion. It is important to observe the primary dentition for early signs of erosion and have a knowledge of the remineralizing techniques available. This lecture will look at the acids in sports and soft drinks and the literature establishing links between low pH drinks and erosion. Fluid loss and general guidelines for fluid needs during exercise will be discussed. Tooth damage other than decay is a huge and increasing problem in all age groups. At the conclusion of this lecture you will understand the mechanisms of tooth loss and the strategy to prevent such problems occurring in our patients.

12:15 pm – 12:30pm **Closing Remarks**

12:30 pm **Adjourn**

1:00 pm – 5:00 pm **Mouthguard Lecture and Hands on Workshop
Ray Padilla, DDS, FASD and Brett Dorney, BDS, FASD**

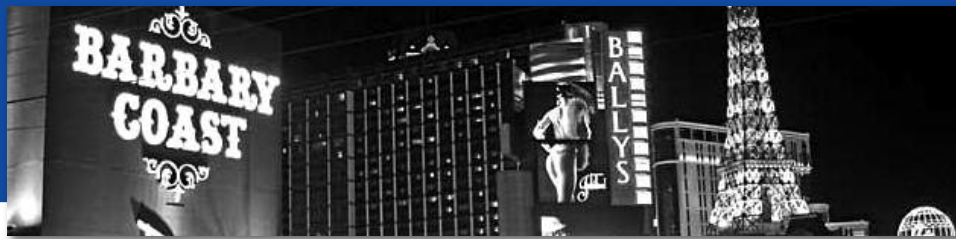

This hands-on course will focus on understanding the differences between outdated vacuum and modern pressure thermoforming fabrication of many appliances and their differences in performance and quality. The attendee will have hands-on familiarity with pressure machines and experience in-house indications, techniques, and designs of appliances such as implant stents, athletic mouthguards, model duplication impressions, temporary stents, clear orthodontic positioners and retainers, bleaching trays, fluoride trays, custom trays and denture bases, denture and partial repairs and other in house thermoformed appliances. In house fabrication allows for same day delivery and decreased lab bills.

At the conclusion of this workshop the attendees will have an understanding of the difference between vacuum and pressure fabrication of athletic mouthguards and other thermoforming appliances. They will see what is available in vacuum machines as compared to pressure machines; their costs and their differences in performance. They will have hands-on experience with pressure machines so an educated decision can be made on possible future purchases.

The attendee will be able to describe indications, techniques, and designs of pressure laminated mouthguards and other appliances such as implant stents, model duplication, temporary stents, clear positioners, orthodontic retainers, bleaching trays, fluoride trays, custom trays, denture bases, bruxism splints (hard and soft).

Presenters . . .

Brett Dorney, BDS, FASD

Dr. Brett Dorney is a general practitioner in suburban Sydney Australia with a passion for Sports Dentistry. Brett lectures widely displaying his technical and clinical expertise with mouthguards. He was deputy director of Dental services for the Sydney 2000 Olympic and Paralympic games and team Dentist for the Rugby World Cup in 2003. He was a member of the Standards Australia Committee that produced guidelines for the care, use and fabrication of mouthguards. He is a

fellow of the Academy for Sports Dentistry and was president in 2006. Brett is a clinical lecturer for the University of Sydney and has presented undergraduate and post graduate courses since 1995.

David R. Farkouh, BSc., DMD, MSc., FRCDC

Dr. David Farkouh is a pediatric dentist working in private practice in Toronto, Ontario, Canada. He obtained his dental degree in 2000 from the University of British Columbia, Vancouver, British Columbia, Canada. He then completed his masters degree in the specialty of Pediatric Dentistry in 2003 from the University of Toronto, Toronto, Ontario, Canada. Dr. Farkouh is a fellow of the Royal College of Dentist of Canada.

He is on staff in the Department of Dentistry at The Hospital for Sick Children in Toronto, where he teaches dental residence and graduate students from the University of Toronto. He is a member of the Toronto SickKids Dental Trauma Research Group. He has extensive training and experience in the area of dental traumatology.

Margaret Hill, DMD

Dr. Margaret Hill is Full-time Faculty in Periodontology and acting Associate Dean for Postgraduate Education Programs at the University of Louisville School of Dentistry. She is a Diplomate of the American Board of Periodontology and on the Editorial Board of the Journal of Periodontology. Her DMD degree is from the University of Louisville in 1987 and Specialty training in Periodontics from the University of Kentucky in 1990. Dr. Hill has authored numerous Chapters

and articles in Periodontal Surgery, Periodontal Osseous Grafting, Bone Regenerative Therapies, Treatment of Oral Facial Trauma, Wound Closure and the Impact of Smoking on Periodontal Disease. She conducts clinical research with dental lasers, oral antimicrobials, bone regeneration, local delivery drugs for periodontal tissue regeneration. In addition to dental school administration and teaching periodontics, Dr. Hill is a co-sponsor for the Louisville dental student sports dentistry program.

Jeffery Hoy, DDS, FASD

Dr. Jeffrey Hoy graduated from the University of Southern California School of Dentistry in 1981 and has been treating snoring and obstructive sleep apnea for over 19 years. Dr. Hoy is an active member of the American Academy of Dental Sleep Medicine, the Academy of Osseointegration and the International Association of Dental Traumatology. Dr. Hoy serves on the Board of Directors of the National Hockey League Team Dentists Association and on the Board of Directors of the

Academy for Sports Dentistry of which he is a past president.

Dr. Hoy has been treating dental trauma and sports related dental injuries for over 28 years, and is the team dentist for the National Basketball Association Los Angeles Lakers and the

National Hockey League Los Angeles Kings. Dr. Hoy maintains a full-time private practice in Torrance, California.

Richard Knowlton, DMD, MAGD

A nationally recognized dentist, Dr. Richard Knowlton, DMD, MAGD, has served the Elizabethtown, Pennsylvania for more than 25 years. Dr. Knowlton currently serves as a National Trustee of the Academy of General Dentistry (AGD), and helps develop continuing education curriculum for dentists in the Pennsylvania Academy of General Dentistry.

Dr. Knowlton has been actively involved with sports dentistry for the last twenty years. He sits on the Board for the Academy for Sports Dentistry and is the Special Olympics/Special Smiles Chairman. He currently holds several affiliations with local college and minor league sports teams.

Dr. Knowlton serves as the Associated Dentist for the Central Penn Piranhas Football Team of the BNEFF; Harrisburg Area Roller Derby Team of the WFTDA, Elizabethtown College's field hockey, softball and men's and woman's lacrosse teams, Lancaster Catholic High School's football team, and the Harrisburg Stampede of the SIFL.

He is also a team coach for Central Penn Volleyball Club and is the Volleyball Commissioner for Rheems Athletic Association.

David Kumamoto, DDS, MS, FASD

Dr. David Kumamoto has served as team dentist for the athletic department at the University of Illinois at Chicago (UIC) for 28 seasons. He is a clinical associate professor in UIC's Department of Restorative Dentistry and lectures on sports dentistry and mouthguard fabrication.

Dr. Kumamoto is a member, Fellow, and a Past President of the Academy for Sports Dentistry. In 2010 he was the recipient of the ASD Distinguished Member Award. He is also a member of the American Dental Association, the Illinois State Dental Society, the Chicago Dental Society, and is a Fellow in the Academy of General Dentistry, the American College of Dentists, and the International College of Dentists.

Dr. Kumamoto has published articles and has lectured on sports dentistry at many conferences. He has compiled information regarding orofacial sports related injuries over the past 20 years and categorized research in this area by specific sport.

Douglas L. Lambert, DDS, FACD, FASDA, FASD, ABAD

Graduated from the University of Minnesota Carlson School of Management in 1980 and the University of Minnesota School of Dentistry in 1984, where he received the Outstanding Senior Student Award and the Quintessence Award. He is a Fellow in the American College of Dentists, the Pierre Fauchard Academy, the Academy for Sports Dentistry, the American Society for Dental Aesthetics, and a Diplomate of the American

Board of Aesthetic Dentistry. He has been recognized as one of the Top Educators by Dentistry Today for seven consecutive years, and has been honored as a Top Dentist by Minneapolis/St. Paul and Minnesota Monthly magazines the past several years. Dr. Lambert has held many societal positions in organized dentistry including Past President of the Minneapolis District Dental Society and is currently a Trustee of the Minnesota Dental Association and a delegate to the ADA. He has authored and co-authored several articles on cosmetic and aesthetic topics, and has presented numerous lectures and hands-on seminars nationally and internationally for dental organizations, universities, and study

clubs. He also serves as an independent consultant and clinical researcher for many dental manufacturers. Dr. Lambert is senior partner in an aesthetic-based practice in Edina, Minnesota emphasizing cosmetic, comprehensive, and sports dentistry.

Gerald Maher, DMD, FAHNP

Dr. Gerald J. Maher has practiced dentistry for more than 30 years, specializing in TMJ and Facial Pain, Dr. Maher is a Fellow in the American Academy of Facial Pain. He received his D.M.D. from Tufts University School of Dental Medicine in 1973 and became a team dentist for the New England Patriots in 1979 and is one of the team dentists of

the Boston Celtics and the New England Revolution. It was in this role that he was able to create and test the Maher Mouth Guard to meet the players' specific requests and needs.

Michael F. Mellman, MD

Dr. Mellman graduated from Mount Sinai School of Medicine in New York. He is a national expert in the area of sports medicine and athletic performance. He served as team physician for the Los Angeles Lakers from 1981 to 1995 and the Los Angeles Dodgers from 1986 to 2006. Dr. Mellman currently serves in that capacity for the Los Angeles Kings 1981 to present. Dr. Mellman is a

member of the National Hockey League Team Physicians Organization and a past president of The Professional Baseball Team Physicians Society. He is a member of the American College of Physicians and a Diplomate of the American Board of Internal Medicine. In addition to his private practice he presents seminars and lectures on sports medicine and athletic performance.

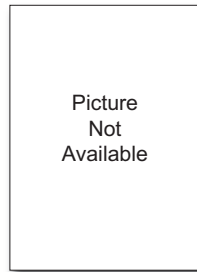

Stephen Mills, DDS, FASD

Dr. Mills is originally from Peekskill, New York and attended college at Westminister College in New Wilmington, PA where he received his B.S. in 1977. He then entered the SUNY at Buffalo School of Dentistry and earned his DDS in 1981. After three years on active duty in the US Army he worked to get his certificate in Pediatric Dentistry at the Department of Pediatric Dentistry of the

University of Connecticut which he completed in 1987.

Upon completion of his specialty training he moved to Maine to enter into the private practice of pediatric dentistry. His commitment to sports dentistry began in 1991 as he followed the direction of his mentor and friend Dr Cosmo Castaldi. He joined the Academy of Sports Dentistry and after years on the Board of Directors became the president of this organization in 2001-2002. Currently he serves the Academy as the editor of its newsletter which appears regularly in the internationally read journal *Dental Taumatology*.

He is Board Certified in Pediatric Dentistry and is active in the Academy of Pediatric Dentistry serving both as a legislative advocate to the members of the US Congress and the President of the Maine Society of Pediatric Dentistry.

Daniel Orr, DDS, PhD, JD, MD

After graduating cum laude with a Bachelor of Science degree in Zoology from BYU, followed by a D.D.S. with honors from the USC School of Dentistry, Dr. Orr completed an Anesthesiology residency at the University of Utah School of Medicine where he also earned a Master of Science in Anesthesiology.

Next, an Los Angeles County/USC/Medical Center Oral & Maxillofacial Surgery residency lead to research leading to a Ph.D. in Biophysics from Columbia Pacific University. Dr. Orr has also

been awarded a Juris Doctrate from William Howard Taft University's Witkin School of Law and an academic M.D. from the University of Health Sciences Antigua School of Medicine.

Dr. Orr is a Diplomate of the American Board of Oral and Maxillofacial Surgery; the American Dental Board of Anesthesiology; the National Dental Board of Anesthesiology; and the American Board of Legal Medicine. He is a Professor and Director of Oral and Maxillofacial Surgery and Advanced Pain Control at the University of Nevada Las Vegas School of Dental Medicine. A Clinical Professor of Surgery and Anesthesiology

Ray Padilla, DDS, FASD

Dr. Padilla is a graduate of the USC School of Dentistry and is on the faculty at the UCLA School of Dentistry. His involvement in sports dentistry includes the 1984 Los Angeles Summer Olympic Games, World Cup Soccer 1994, 1999, and 2003. He is the Team Dentist for UCLA Athletics, the Los Angeles Galaxy Major League Soccer Team, and USA National Soccer Teams. Dr. Padilla has published many articles on dental appliance pressure thermoforming, mouthguards, trauma treatment and prevention and organized www.sportsdentistry.com. He recently authored a trauma

prevention chapter in "A Clinical Guide to Dental Traumatology", published by Mosby. An international speaker, he has lectured in Australia, Japan, Switzerland, Germany, Canada, Spain, Mexico, Greece, and numerous USA venues such as AGD, ADA, CDA, Chicago Midwinter, Texas Meeting and Yankee Congress. He maintains a private practice in Manhattan Beach, California.

Paul Piccininni, DDS, BSc, FASD

Dr. Paul Piccininni has been involved in Sport Dentistry on a national and international level for over 20 years. In addition to being the Dental Consultant for York University, he is also Team Dentist for the Toronto St. Michael's Majors of the Ontario Hockey League.

Paul is a member of both the IIHF (International Ice Hockey Federation) Medical Committee and the IOC Medical Commission Games Group. He has set-up and administered the Dental

Program for the last 6 Olympic Games. Paul has also helped co-ordinate the medical and dental services for such prestigious events as the world championships in basketball, athletics and ice hockey.

Paul has a private practice in downtown Toronto specializing in cosmetic and sport dentistry.

Michael Robinson, III, DMD

Dr. Michael Robinson graduated from the University of Pennsylvania School of Dental Medicine in 1995, and has been active in the South Florida sports medicine community ever since.

Dr. Robinson maintains a full-time private practice in South Miami, Florida. He serves as the team dentist for the NCAA Miami Hurricanes and Florida International University Golden Panthers, as well as the National basketball Association Miami Heat. In addition, he was the on site dentist for the Miami soccer venue for

the 1996 Atlanta Olympic Games.

Presenters . . . continued

Dr. Robinson has lectured numerous times on sports dentistry including the Florida National Dental Congress, University of Miami, Florida International University, Nova Southeastern University School of Dental Medicine, and the University of Kentucky School of Dentistry, as well as the Miami Dade County Association of Athletic Trainers, and several local dental study clubs.

Leslie Rye, DDS, FASD

Dr. Leslie Rye has provided family, cosmetic and implant dental care for over 30 years in Reston, Virginia. Dr. Rye has earned special recognitions as a Fellow in the Academy of General Dentistry and the Academy for Sports Dentistry. In addition to private practice, she had lectured in oral medicine and clinical pharmacology for several years at Georgetown University's School of Dentistry and has presented many dental CE classes.

Currently she is an adjunct associate professor teaching clinical pharmacology for the dental hygiene program at Northern Virginia Community College.

She is a past President of the Academy for Sports Dentistry and has served on boards of several professional and community organizations.

G. Dave Singh, DDS, PhD, BDS

Dr. G. Dave Singh was born, educated and trained in England. He graduated with a Degree in Dental Surgery in 1983; obtained his PhD in Craniofacial Development in 1992, and his DDS in Orthodontics in 2000. Dr. Singh is a professor who has authored numerous research papers in dental and orthodontic journals, and has published a book entitled "Epigenetic orthodontics in adults". Currently, he is Director of Continuing

Education, SMILE Foundation, USA; Senior Instructor, International Association for Orthodontics; Academic Fellow, World Federation of Orthodontists, and President of BioModeling Solutions, LLC. Dr. Singh has lectured in North America, Europe, Asia, Australia and South America.

John Wisniewski, DMD, MS

Dr. Wisniewski graduated FDU School of Dentistry (1980) and completed a GPR Program (1981) at University Hospital – UMDNJ. Dr. Wisniewski holds a M.S. in Dental Biomaterials from UAB (1995) and M.S. in Endodontics from UNC-Chapel Hill (2003).

Over the last twenty-five years, Dr. Wisniewski has conducted clinical research involving nicotine usage and smokeless tobacco use among athletes. He has utilized

the results from his research to develop a unique approach in conducting a smokeless tobacco hazard awareness program, specifically designed for athletes. Previously, Dr. Wisniewski served as Dental Consultant to Mr. Jimmy Bragan, President of the *Southern League of Professional Baseball Clubs* (1990-1994) and as Dental Consultant and Coordinator of the Spring Training Dental Screening Program for the *Atlanta Braves Baseball Organization* (1993-2003) and for Latino Baseball Players in the *Cleveland Indians Minor Leagues* (2005). Dr. Wisniewski was an Educational Dental Consultant for the *New York Yankees, Kansas City Royals, and Houston Astros Minor Leagues*, (1992-1994), the *Florida Marlins* (1994, 1996, 1999) and the *Jacksonville Jaguars Football Team -NFL* (1995), *Tampa Bay Rays' Minor Leagues* (2008) and the *Georgia State University Football Program* (2010).

Currently, Dr. Wisniewski is in private *Practice Limited to Endodontics* in Cary, North Carolina. Dr. Wisniewski also holds an appointment as Adjunct Professor in the Department of Pediatric Dentistry where he lectures to the grad pedo and grad endo residents at the UAB School of Dentistry, is a consultant to the Durham Bulls Baseball Team (2004-present).

Call for Abstracts – Poster Presentations . . .

The Academy for Sports Dentistry invites the submission of abstracts related to sports dentistry to be considered for poster presentations at the 2011 Annual Symposium to be held June 22-25, 2011, at the Green Valley Ranch Resort and Spa, Henderson, NV. Poster presentations will be presented on Saturday, June 25, 2011. Posters will be set up on Thursday and remain throughout the symposium.

Instructions

All submissions to the Annual Symposium must be accompanied by an abstract using the format provided. Abstracts that do not follow these guidelines may be disqualified.

1.) General Guidelines

- Abstract must be submitted as an attached Microsoft Word document to email address: sportsdentistry@consolidated.net
- Use 11 point Times New Roman font.
- Do not use bold, italic or underline unless otherwise indicated.

2.) Heading section (title, author, affiliation)

- This entire section should be bold.
- Use a clear, concise title that reflects the study/survey etc.
- List the title first capitalizing only the first letter of the title and ending with a period.
- List authors' names-last name first followed by initials. Do not separate initials by periods or include authors' degrees.
- Separate authors' names by commas, with no period following final name.
- Place an asterisk after the presenter's name.
- List all affiliations following the last author's name and enclose them in parentheses. If there is more than one affiliation, separate them by semicolons.
- Include the city and state after each affiliation using uppercase postal abbreviations for state names (eg, University of Michigan, Ann Arbor, MI).
- Do not place a period at the end of the Heading section

3.) Subhead section (if applicable)

Identify any supporting agency and grant number in 10 point italicized font, written as a complete sentence and begin as follows: Research supported by . . .

4.) Body

The body cannot exceed 200 words and should follow the usual sequence of purpose, methods, results and conclusions. Abbreviations should be defined on first mention.

Poster Presentations

Posters should be designed to fit a 4' (120cm) high by 6' (180cm) wide poster board. The poster session will last about 1 hour and presenters must be available for the entire viewing time.

Deadline for submissions: March 31, 2011
