

Academy for Sports Dentistry
Established 1983

Why Have a Dentist on Your Athletic Medical Team?
Trust, Reliability and Access

- Specialized training in prevention and treatment of dental sports injuries.
- Flexibility and responsiveness to athletes' practice and competition schedules.
- Onsite assessment and treatment of dental injuries at events and coordinated follow-up treatment if needed.
- Development of custom-made mouthguard program for athletes who want them.
- Routine care for athletes or their families who don't already have a local family dentist.
- Referral network of trusted specialists, including orthodontists, oral surgeons, etc.
- General consultation and education.

It's 7:00 a.m. One of your athletes falls during practice and knocks a tooth loose. He must present a paper at 10:00 a.m...

You're hosting a regional weekend event. A visiting referee arrives with a serious toothache...

One of your athletes loses a custom-made mouthguard. She needs a new one for a meet tonight...

An opposing player for tomorrow's game needs follow-up care from an injury tonight once his team arrives...
